IEP Goal Progress Tracker

Use this worksheet alongside the student's current IEP and progress reports. It helps families track whether goals are measurable and whether progress is visible over time.

How to use

• Copy the exact IEP goal and baseline from the signed IEP; do not paraphrase the official goal.

• Note the measurement method, reporting schedule, and expected target.

• After each progress report, record the reported result and any home observations.

• Bring specific questions and examples to the IEP team if progress is unclear or stalled.

Goal record

Student: _____ IEP date: _____

Goal area: _____

Goal text (copy from IEP):

_____ _____

Baseline: _____

Target / mastery criterion: _____

How measured: _____

Responsible provider / service: _____

Progress log

Report date	School-reported progress / data	Parent observations	Questions / next steps

Report date	School-reported progress / data	Parent observations	Questions / next steps

Meeting follow-up

What is working: _____

What needs clarification or adjustment: _____

Next review date: _____

Reminder: Home observations complement, but do not replace, school progress-monitoring data.
